INTERNATIONAL SEARCH REPORT

PCT/US 98/ 22054

Box I Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☒ Claims Nos.: all in part
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
see further information sheet

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see further information sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.

2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.

3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1-20 (partially)

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

In the present set of claims a very high number (well in excess of 2000) of different acids (and esters, stereoisomer or salts thereof) is presented. This set of claims violates the requirements of Article 6 PCT relating to clarity and conciseness. The presentation makes it so difficult to determine the matter for which protection is sought (Article 6 PCT) that a meaningful search over the whole breadth of the claims is impossible. Furthermore, the applicant has already indicated in the present application (cf. pages 2- 4) that many of the actually claimed compounds are already well known in the art. This makes it even more unclear to determine the matter for which protection is sought.

For this reason it has been decided to limit the search to the 77 different acids (including their soap derivatives) specifically disclosed in Examples 1- 82, and to the various intended uses as disclosed in claims 10- 13 and 19.
